September 2024- June 2025

Walmart, 8700 Andermatt Dr - *Cashier*

- As a cashier I used customer service skills on the daily to ensure a positive shopping experience for our customers. I would do this by greeting the guest as I checked and bagged their groceries as well as accommodating any specific needs they may have required.
- I often dealt with and handled cash, checks, EBT, Medicaid, as well certain gift cards.
- Price checks, item returns, gift receipts, were also tasks I completed on the daily
- Along with being a cashier I would also occasionally be assigned to be a greeter in which I would greet customers as they entered and then check receipts and bid farewell as they left the store.
- I was often assigned to do returns as well in which I would load an L cart full of returned products, and re-place them where they belong throughout the store. This involved

zoning as well, making sure the aisles were orderly and tidy, as well as assisting any customers I came across with whatever they may need.
